

MP 820 series Wheels provide reliability and application versatility in a very robust and compact package.

TECHNICAL CHARACTERISTICS

Military and industrial quality

2 axis

Ergonomic or all shapes of handles

Adaptable wheel deflection angle

Light weight

Cast aluminum

Potentiometer / contact less sensor

Logic and analogic functions on handles

IP54 (above panel)

Options proposed :

Redundancy of transducers

Serial output RS232/422/485

PS2 / CAN / PWM / USB ...

Analogic or numeric output

MAIN APPLICATIONS

Control pilot

Submarine equipments

Tank

Turret shooting

Robotic and industrial system

Material handling

Tracking and flight control

Naval applications...

STANDARDS

MIL STD 810 / 461

MIL STD 1250

MIL C 39888 for connectors

GAM EG 13

DO - 160
